RE: REDI CHECK INTERNATIONAL

Dear Mr. Fewell:

I would like to commend Redi Check International on the successful completion of sixteen work orders for Virginia Beach City Public Schools, with a construction value totaling in excess of one hundred thirty million dollars. In my opinion, your patented process of checking construction documents and providing an interdisciplinary coordination review is a service that cannot be matched by another firm.

The work that you and your staff at Redi Check have provided has been responsive, well received by all of our architects and engineers and is without a doubt a worthwhile investment. In fact, I know of two other local school divisions who plan to incorporate the Redi Check process on their significant projects.

As for Virginia Beach City Public Schools, we plan to continue to utilize Redi Check for all of our larger capital projects. Your service produces, in the end, a better, more coordinated set of construction documents, which result in significant savings.

Sincerely,

Anthony L. Arnold P.E., Director
Facilities Planning & Construction
